

## African Elephant

African elephants are taller and have bigger ears than Indian elephants.

Elephants eat leaves and grass.

Elephants can live to be up to 70 years old.

They sleep standing up!

## Lion

A group of lions is called a “pride”.

A baby lion is called a “cub” and a female lion is called a “lioness”.

When a male lion roars, you might hear it up to 5 miles away!

Females do most of the hunting, while males defend the pride.

## Zebra

The stripes on each zebra are unique - no two are alike.

Zebras can run at speeds of up to 35 miles an hour.

Zebras can live to be up to 30 years old in the wild, or 40 years old in zoos!

## Giraffe

If a giraffe stuck out its tongue at you, you might be surprised to see that it is black!

A giraffe moves about 15 feet with every step.

As giraffe's grow older, their spots grow darker.
