

Origami Dracula

Here is a spooky origami project! You can have great fun drawing Dracula's wicked features to make him as scary or silly as you like.

This is a nice, simple model, so all ages should be able to enjoy it.

1. With the colored side down, fold your square diagonally from corner to corner. Unfold, and fold it the other way. Open up again.

2. Fold the top corner down to reach the centre point.

3. Fold the two sides in to form Dracula's hair style.

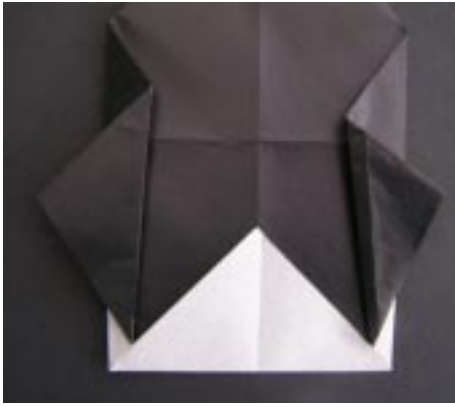

4. Flip the model over, and bring the two side corners in to the middle crease. Crease carefully.

5. Now fold the bottom corner up to the middle crease too.

6. Fold the side flaps out again, as shown, to form the edges of Dracula's cape.

7. Now, the shape his chin, fold the bottom corners in.

8. Flip over.

9. Add your features - remember to make him scary!
