

Origami Pig

What a gorgeous little pig this is! Nice and simple to fold, he looks very effective when you have added his features with a black marker pen.

1. Start by folding your square in half diagonally, and creasing carefully.

2. Unfold.

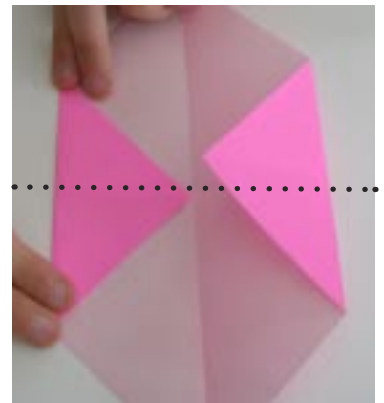

3. Now fold the square in half along the other diagonal, and crease again.

4. Unfold again, and lay your square on the table with the white side facing up.

5. Take one of the corners and fold it in until it meets the centre point. Crease well.

6. Bring the opposite corner in to meet the centre too. Now fold the whole thing in half, pink side out ...

7. so that your model looks like this.

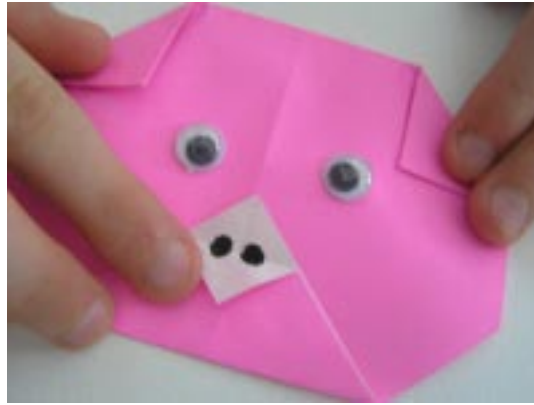

8. Turn both points up along the centre line, about half way.

9. Now fold the top flap down again, just a little, to form the pig's snout.

10. Fold the top two corners down to form his ears.

10. and then add your pig's features!
