

Felt Matryoshka Template

Cut two bodies, one shawl, and one tummy from bright colours of felt.

Cut one face from flesh coloured felt, and one piece of hair from brown felt.

Sew or glue the hair onto the face. You may want to embroider on the face at this stage.

Sew or glue the face to the shawl and sew the shawl to one of the bodies.

Decorate the tummy with buttons, embroidery or felt flowers (or leave plain for now and add fabric paint later). Sew the tummy panel to the same body as the shawl.

Sew the two bodies together around the edge, securing a loop of ribbon at the top of the head if you want to hang your doll. Leave a gap to lightly stuff the doll and sew closed.

If you have not decorated the face and tummy, decorate now with fabric paint.
